## Bio

Passionate Front End Developer with 3+ years of experience specializing in React.js, Next.js, and TypeScript, building scalable, high-performance web applications and dynamic, user-centered interfaces. I transform design systems into responsive, reusable components using Tailwind CSS, Styled Components, and modern frontend architectures. Beyond development, I am a product-focused thinker, actively creating tech content, sharing knowledge as a growing tech speaker, and collaborating on solutions that solve real-world problems. Skilled in state management, dynamic routing, performance optimization, and clean, maintainable code, I combine technical expertise with strategic thinking to deliver impactful digital experiences and contribute meaningfully to the tech community.
